

1. TITLE OF THE CERTIFICATE (CZ)⁽¹⁾

**Vysvědčení o maturitní zkoušce z oboru vzdělání:
26-45-M/01 Telekomunikace (denní studium)**

⁽¹⁾ In the original language

2. TRANSLATED TITLE OF THE CERTIFICATE⁽²⁾

**Maturita Certificate in:
26-45-M/01 Telecommunication (full-time study)**

⁽²⁾ This translation has no legal status.

3. PROFILE OF SKILLS AND COMPETENCES

General competences:

- be familiar with various methods of learning, use sources of information well, show functional literacy;
- understand assignments or identify the cores of problems, exert variable solutions, work both independently and within a team;
- communicate in one foreign language at the level of at least B1 of the Common European Framework of Reference for Languages;
- cope with changing socio-economic conditions, be financially literate;
- be aware of the labour market mechanisms, and of the employee-employer relationships, act on career decisions responsibly, understand the significance of lifelong learning;
- use basic mathematics and the basic principles of physics and chemistry when needed in daily situations;
- work with the means of information and communication technologies, exploit adequate sources of information, handle information effectively;
- act in an environmentally-conscious manner and in compliance with strategies for sustainability;
- support values of local, national, European and world cultures, recognize the value of life;
- exert fundamentals of health protection, occupational safety, and fire prevention and safety;
- exert norms and prescriptions in the field.

Vocational competences:

- install, configure, operate and maintain telecommunications equipment;
- design, build and compile simple electronic circuits;
- select components from a catalogue of electronic components;
- plan, build and manage simple data network;
- design and perform connection of the PC or network to the Internet;
- plan review and maintenance of telecommunications components and equipment, and design methods for the possible removal of defects;
- measure the telecommunication network;
- read and create electrical schemes and other graphical technical communication products used in telecommunications;
- read and create simple drawings of parts and assemblage and use construction drawings;
- use the results of measurements for control, diagnostics and commissioning of telecommunication components and equipment;
- use a measuring device for measuring the parameters and characteristics of electrical components and equipment;
- determine signal parameters and the parameters of transmission paths;
- analyze and evaluate the results of measurements carried out and process well-arranged records about them;
- perform electro-technical calculations.

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THE CERTIFICATE

The graduate is employed in middle management positions in telecommunications, in work activities associated with the assembly, disassembly and testing of telecommunications equipment; in reviving and operational maintenance of telecommunications equipment; in the production, assembly and repair of communication equipment; in the delivery of the technical operation of telecommunication and data networks; when providing telecommunications services; in the design, construction and management of computer networks.

Examples of possible jobs: technician of radio communications, transmission equipment, telecommunication services, radio communication devices, coupling devices, computer networks, computer technology, telecommunications traffic controller, the controller of telecommunications equipment.

5. OFFICIAL BASIS OF THE CERTIFICATE

| | |
|--|--|
| Name and status of the body awarding the certificate Střední průmyslová škola sdělovací techniky Panská 3 Praha 1 110 00 CZ public school | Name and status of the national/regional authority providing accreditation/recognition of the certificate Ministry of Education, Youth and Sports Karmelitská 7 118 12 Praha 1 Czech Republic |
| Level of the certificate (national or international) Upper secondary education completed by the Maturita examination ISCED 354, EQF 4 | Grading scale / Pass requirements 1 excellent (výborný) 2 very good (chvalitebný) 3 good (dobrý) 4 satisfactory (dostatečný) 5 fail (nedostatečný) <i>Overall assessment::</i> Prospěl s vyznamenáním: Pass with Honours (the average mark is ≤ 1,5) Prospěl: Pass (an examination mark is not worse than 4) Neprospěl: Fail (the examination mark in one or more subjects is 5) |
| Access to next level of education / training ISCED 655/645/746, EQF 6 | International agreements |
| Legal basis Law No. 561/2004 on Pre-school, Basic, Secondary, Post-secondary and Other Education (School Act) as amended by later regulations | |

6. OFFICIALLY RECOGNISED WAYS OF ACQUIRING THE CERTIFICATE

| Description of vocational education and training received | Percentage of total programme | Duration |
|---|---|--|
| <ul style="list-style-type: none"> • School- / training centre-based • Workplace-based • Accredited prior learning | The ratio between theoretical education and practical training is defined by education providers themselves with regard to the respective educational programme and the employers' needs. | |
| Total duration of the education / training leading to the certificate | | 4 years / 4 096 lessons |
| Entry requirements Completed compulsory school education | | |
